## Ford F-250/F-350 Dedicated & Bi-Fuel CNG Pickup

IMPCO Automotive is recognized by Ford as a Gaseous Fuel Qualified Vehicle Modifier. Working closely with Ford engineering, IMPCO develops and provides engine calibrations, modification components, and installation instructions that comply with Ford requirements to ensure a seamless experience while maintaining the Ford engine warranty.

### Shipping Options

As a Ford ship-thru installation center, IMPCO receives vehicles directly from Ford assembly plants. Upon completion the CNG converted vehicle re-enters the Ford transportation system for direct delivery to dealerships or additional body upfitters. IMPCO also offers a drop ship option, where a truck can be sent directly to a Certified Installer for installation of a CNG system to meet the needs of the customer.

### Production Highlights

- Qualified Vehicle Calibrator (QCM) with Ford-which means IMPCO meets all the standards required for seamless operation on an alternative fuel
- Beyond our standard offerings, IMPCO has the ability to offer various configurations to meet your unique requirements
- Solenoid-controlled lock-out valve closes CNG tank when ignition is turned off
- Fasteners coated to exceed 10 year cyclic corrosion testing
- Dyno tested following CNG fuel system installation
- Work performed and validated in an ISO 9001:2008 certified manufacturing facility
- Fuel lines and harnesses clipped, secured, and routed to meet or exceed all OEM standards
- 3 Year/36,000 Mile Warranty

### Product Specifications

- Type IV Tank-24 GGE's mounted in pickup box
- Regular Cab, Super Cab, Crew Cab, or Bed Delete\* available
- 4 x 2 or 4 x 4 driveline configuration available
- 6.2L V8 with Gaseous Prep Engine package
- Bi-Fuel (EPA Certification) or Dedicated (50 State Certification)
