

Fill Up Your Natural Gas Vehicle at Home With

Phill by BRC FuelMaker enables owners to refill their Natural Gas Vehicles (NGV) at home from their existing natural gas supply.

The world's first appliance that lets you refuel your Natural Gas Vehicle indoors or outdoors from your household natural gas line. Filling up is as easy as 1-2-3. Just connect *Phill* to your car, press "Start", and relax! You can refuel overnight or when ever your vehicle is not in use!

BENEFITS:

- Convenient** *Phill* refuels a typical compact car overnight, allowing for over 100 miles of travel.
- Quiet** *Phill* produces no more noise than an air conditioning unit.
- Economical** *Phill* uses no more electricity than an average small appliance.
- Flexible** *Phill* is easily mountable inside or outside a garage.

GAS	
Maximum Discharge Pressure:	3600 psig @ 70°F
