

ZEBULON INNOVATIONS ANNOUNCES U.S. EPA APPROVAL OF ZAVOLI CNG CONVERSION KIT FOR INTERMEDIATE USE: Ford 6.2L and 5.4L ENGINE GROUP

Ankeny, Iowa – January 15, 2014 Zebulon Innovations, the Exclusive importer and Distributor of Zavoli CNG Conversion Systems is proud to announce that it has received full EPA certification for Zavoli's world-renown compressed natural gas (CNG) bi-fuel systems that are available now for the complete line of Intermediate (2012 and older) Ford trucks, vans and SUVs configured with 6.2L and 5.4L engines.

"Obtaining this CNG conversion Kit's approval by the EPA was strategically important for a number of our fleet customers who are in need of an intermediate kits that would allow them to convert a broad array of Ford vehicles, including the F-350, F-250, F-150 pick-up trucks, E150, E250, E350 vans, Expedition and Navigator SUVs and even Lincoln/Mercury Crown Victoria, Grand Marquis and Town Car" commented Lee Nelson the Chief Technology Officer of Zebulon Innovations.

The proven Zavoli technology and EPA certification give GM's fleet customers an immediately available option to convert 2012 GM trucks to run safely on both gasoline and compressed natural gas. As a transportation fuel, CNG provides significant fuel cost savings while meeting all EPA vehicle emissions requirements. The bi-fuel vehicles easily transition between CNG and gasoline offering drivers an extended mileage range.

All Zavoli CNG Conversion Systems products are engineered to meet the most stringent performance and emissions standards and are premium grade equipment. Zavoli CNG Conversion System products are high altitude and cold-start tested and designed for U.S. Vehicles. The **Zavoli BORA Software®**, which connects and calibrates seamlessly to factory on-board diagnostics systems, is widely regarded as being the easiest to configure resulting in the best performance in the CNG industry.

Zebulon Innovations has created a national network of certified and trained dealer/installers for the Zavoli CNG Conversion Systems. With the Zavoli CNG Conversion System's bi-fuel conversion system, the vehicle owner selects the GM or Ford adaptable chassis truck configuration and CNG tank size. Zavoli CNG Conversion Systems qualified installers work with fleet and individual vehicle owners to ensure a reliable and competitive CNG system is installed and they provide ongoing customer and technical support.

If you have an interest in a Zavoli CNG Conversion System or wish to become a certified dealer/installer, please contact Zebulon Innovations' offices at 515.289.9191.
