

ZEBULON INNOVATIONS APPOINTS NEW LPG INSTALLER AND DEALER IN MANKATO, MN

- InstallerDealer is the U.S. Pioneer of Propane Vehicle Conversion - ACME -

DES MOINES, IA — October 20, 2014 — Zebulon Innovations, the Exclusive North American Distributor of Zavoli compressed natural gas (CNG) and liquid propane gas (LPG) conversion systems today announced the appointment of Mankato, Minnesota-based ACME Alternative Fuel Solutions as an authorized installation center of Zavoli's bi-fuel CNG and LPG conversion systems.

Zebulon Innovations said ACME Alternative Fuel Systems has been in the business of propane distribution since the 1940's and have been converting vehicles to operate on propane fuel since the 1960s. Acme Alternative Fuel Systems has been converting vehicles using IMPCO, a sister company to Zavoli, to convert vehicles to operate on propane since 1993.

"We are thrilled to add ACME to our national dealer/installer network and it makes perfect sense considering Acme has decades of experience new converting vehicles with IMPCO's conversion kits as the Zavoli Kit shares a number of parts and is used on after-market vehicles (know as immediate useful life or IUL)" said Lee Nelson, Chief Technology Officer of Zebulon Innovations.

Zebulon Innovations is accelerating its conversion dealer/installer network throughout the United States and Canada since receiving numerous EPA approval for Zavoli's conversion kit technology for the widely operated line of vehicle types. The company expects to obtain EPA approvals for additional engine groups to address the anticipated increasing demand from fleets that desire to operate on either LPG or CNG.

Dale Hudson, President of ACME Alternative Fuel Solutions noted that "Acme was looking for a high quality LPG conversion kit to serve the after-market and found the Zavoli Kit to be of the highest quality, but very reasonably priced. The Zavoli software is the true difference maker as it is the easiest and most accurate software to calibrate in the industry."

About ACME Alternative Fuel Solutions

ACME is considered one of the leading authorities and pioneers in gaseous fuel vehicle conversion, ACME specializes in LPG and CNG sales, installation and service. The company is a distributor of IMPCO Technologies and works with OEM dealers, garages, gas companies, conversion companies and fleet technicians for the OEM market and Zavoli for CNG, LPG after-market conversions.
