

ZEBULON INNOVATIONS APPOINTS NEW CNG & LPG INSTALLER AND DEALER IN BROKEN ARROW, OKLAHOMA

- Installer is a Leader in the Hotbed of Natural Gas and CNG Conversions -

DES MOINES, IA — October 7, 2014 — Zebulon Innovations, the Exclusive North American Distributor of Zavoli compressed natural gas (CNG) and liquid propane gas (LPG) conversion systems today announced the appointment of Broken Arrow, Oklahoma-based Green Country CNG as an authorized dealer/installer of Zavoli's bi-fuel CNG and LPG conversion systems.

Zebulon Innovations also said that Green Country has a wealth of experience with CNG Conversions having been Apache's go-to-company in converting a number of vehicles in their fleet. "The addition of Green Country CNG to Zebulon's dealer/installer network provides us a highly reputable sales and installation partner in one of the fastest growing CNG/LPG markets in the U.S. The growth in CNG infrastructure and vehicle conversions that Oklahoma is experiencing is amazing and we needed a partner that was experienced and proven in that state. Considering Apache Corporation (the large, publically-traded, American independent oil and gas corporation) trusts Green Country CNG with their conversions says a lot. We are fortunate to have them as a key member of the installation and dealer network for the Zavoli CNG/LPG conversion kits" said Lee Nelson, Chief Technology Officer of Zebulon Innovations.

Zebulon Innovations is accelerating its conversion dealer/installer network throughout the United States and Canada since receiving numerous EPA approval for Zavoli's conversion kit technology for the widely operated line of vehicle types. The company expects to obtain EPA approval for additional engine groups to address the anticipated increasing demand from fleets that desire to operate on either CNG or LPG.

About Green Country CNG Conversions

Green Country CNG offers the latest technology in Compressed Natural Gas (CNG) conversions at the most affordable prices. Current gasoline prices are expensive and they are continually rising. Instead of spending more money on gasoline, why not spend less with CNG? We always offer a EPA conversion when available but almost any vehicle can be converted, including both diesel and gasoline engines. We are Oklahoma State Certified for Alternative Fuels and have 30 years of experience in auto-service excellence. For more information about Green Country CNG, you may reference www.GreenCountryCNG.com.

Zebulon Innovations

Zebulon Innovations was created by U.S. entrepreneurs to identify the world's best CNG and LPG products and introduce them to the North American market. Zebulon Innovations provides a full-scale line-up of CNG and LPG solutions, including Zavoli CNG Conversion Kits, CNG and LPG tanks, a network of world-class ASE Certified installers and CNG refueling equipment including Bauer compressors, BRC Fuelmaker compressors and CUBOGAS CNG refueling stations.
